FAITH

WHAT WILL IT BE NEXT?

American people are surely like a lot of children, when it comes to their actions and decisions. They must have something to argue and fight over all the time.

During wars, we are told to just wait until the war is over and we will live in peace and harmony, and everything will be levely, When the wars are over, or even before they are over, people begin to look for something to scrap about, no difference how small it is, or how little it amounts to.

They said to the people. "Just wait until this war is over, and things will be so and so." The war has not been declared over yet. and we are arguing over everything they can think of, price control, more wages, daylight savings time and hundreds of other things, Will there ever be any peace?

WASHINGTON, April 23. THAT some of the amendments with which the House last week loaded the OPA are crude and crippling is beyond dispute. It is clear too that the idea of many members, as one man put it, was to "murder" the OPA agency rather than amend the act.

NEVERTHELESS, there is nothing to be gained by misrepresenting the facts behind this "sabotage"-if that is what it was. For example, three completely false statements are made concerning the reasons for the overwhelming opposition. (1) That it was the work of a coalition of "reactionary Southern Democrats" and Republicans who want to wreck the Truman pro gram; (2) that those who voted to "murder" the OPA are anxious to bring about inflation; (3) that those, who so voted favor larger profits for business regardless of increase in the cost of living for the "com-

#### LEARNING TO WAIT IS BENEFICIAL

There wouldn't be so many hasty marriages if the persons involved had learned in earlier years to wait. So many children, youths and adults today expect to have whatever they want right away.

The pity of it is that so few children get adequate training in learning to wait, Some, alas, get almost no training in this useful The common fate of those who art. Instead, their wishes are promptly gratified. They get what they want when they want it. They

experience few denials. This is particularly so in the nomes of average or above-average incomes. About the hardest problem parents in such homes have is to deny the child what he should be denied, and to restrain him when he should be restrained. He gets, too many things and too much

Jacob C. The Greater New Castle Association is used as a clearing house for all sorts of questions and complaints by local citizens, in addition to trying to locate industries and businesses here, Mr. Wachtman stated It also acts as a real estate agent for folks wanting to buy locations for business sites: it advises veterans on starting into business, and of Labor and only woman cabinet the odds in favor or against making member in the nation's history, is a success of such a proposition; acts definitely not a lady in retirement.

He pointed to the purpose of the loan-to try to tear down the world's trade barriers. At one point he said "Russia is going to follow a policy of state trading. I do not complain-I only state the facts."

How Endocreme makes possible

A Younger Looking

Face and Throat

For a more youthful, more lovely face and throat, try Endocreme, the 8-year tested scientific face cream. With most women, it achieves results heretofore thought impossible. This is because Endocreme helps improve the skin itself, not-merely its outward appearance. The reason is Activol. Only Endocreme contains Activol, a scientific replacement for woman's own natural skin-vitalizing substance. Absorbed by the skin it helps restore normal growth to ageing cells and tissue. The skin tends to become tresher, firmer, smoother, softer, radiant with more youthful charm. Endocreme today is bestowing its blessing upon thousands. Why don't you try it? How better can you invest your cosmetic dollars? Many report exceptional improvement in only 30 days.
